

Hello

My name is Judith Huh and I am a listener of Air 1 which is 100.9 in my area, San Jose. I am writing this because I care and I want AIR 1 to stay. AIR1 serves my local community in ways that no one can count. I work with youth students around the San Jose, Santa Cruz, Mountain View and even East Bay area. These students listen to AIR 1 while being dropped off at school, while driving to school, at home while doing homework, and even at their local hangouts. It's positive music for this youth generation and I believe it's making a HUGE difference in their lives.

If AIR 1 was to be replaced with a different programming, I don't know what these students would turn to for that positive alternative. Ever since AIR 1 began, the effect is invisible to a human count but emotionally, spiritually and mentally it's a great companion to listeners. I truly believe AIR 1 is something that needs to stay on the FM translator it is currently on. It sure beats the degrading music youth kids could listen to on other stations and it brings a fresh positive message to them. Which we lack so much in our airwaves in this century for their generation and their families.

I want AIR1 to stay on the radio. Every morning I listen to AIR1 and it has been my "breakfast" for the day that gets me on the right track. Let's keep AIR1 on the radio!!!!
